FAQs

1. If I were to become a Physical Therapist in the future, how much money will I make in a month?

In my future I want to work in San Diego, so my monthly earning would be \$7945. The average annual salary for a Physical Therapist in 2016 was \$95350. From the 'Making Money Choices' tab in the cacareerzone.com and from what I project what I am going to spend monthly, I will have around 2000-3000\$ left.

2. What is the latest date you could apply to colleges?

All CSUs have the same application deadline for freshman. For the Fall 2018 term, the application deadline is November 30, 2017. Go to csumentor.edu for up-to-date information. "Application Dates and Deadlines."

3. How do I find scholarships?

Applying for scholarships is a great way to lower prices off the tuition and price to attend college. Even the smallest help can be useful to the cost. Depending if you have found the college you want to attend, the financial aid office is a great place to start. Most colleges have specific funds that are benchmarked for students in various programs, of certain ethnicities, or other criteria.

4. How Do I Find What College Grants Are Offered at the College I am Considering?

College grants are made to help students with a financial need to cover some of the expenses that students must pay to go to the school. What is good about a college grant is that these don't need to be paid back. To find what grants you could apply for you should meet with your guidance counselor to discuss the process, and the counselor will have access to information on which grants you may be able to apply for. Applying for grants while you are still in high school and while you have professional help on your side is ideal.

5. Do all colleges require SAT and ACT scores to be submitted in applications?

Not all schools require you to take both but taking one means you may do well on the other. You still have the chance to turn in which test you did better on. No matter what, the colleges will accept both if you choose to submit more. Taking and submitting both SAT and ACT gives the school more information on yourself.

6. Should you have a part-time job while studying at college?

If you were to get a part-time job while earning your credits for college, you would need to manage your time very efficiently. It would be a great opportunity to gain job experience so that in the future your dream job will see that you have some necessary experience and skills needed for the job to get done. You will obviously need to start somewhere in your life and getting bad jobs out of the way is a great start.

7. What classes will I be required to take if I look into Kinesiology?

Kinesiology majors may be required to take courses in biomechanics, motor learning, exercise physiology, human anatomy, nutrition, sports physiology, fitness testing, and more. Some programs require that students choose a particular area of focus, such as exercise science or fitness. Most programs also require that students complete a semester-long internship at a local health clinic, fitness facility, or rehabilitation center. The basic prerequisites for a program of this type are a high school diploma, satisfactory ACT or SAT scores, and prior study in mathematics and natural sciences.

9. How important are extracurricular activities in college admissions?

Extracurricular activities are important as a secondary factor in the college admission process. The most important factors are your grades and test scores. But being able to show that you are an all-around person makes you distinguishable between each person. Having some experience in other activities may make you stand out more than others in some cases.
